Setting of the Cookie's Bustle's MAP

A 100 year ago, a UFO crash-landed on Bombo World, a tiny country floating in the South Pacific.

When the President of Bombo World met the EBEs (space aliens) from the UFO, he promised them the northern part of his country on the condition that they give him their advanced technology. Since then, Bombo World prospered into a country full of unique features with diverse sceneries and cultures as follows:

- Southern part is called ‘Southern Territory’ where wild nature and multi-cultural heritage are preserved.
- Northern part is called ‘Derocity’ that the EBEs developed with an unknown metal. It is surrounded by ‘Metal Desert’ (also made from unknown metal).
